

# REIMAGINE EDUCATION

*Transforming Research into Collective Action*

*Join us on this urgent journey.*

Much more needs to be done to make our schools better for each and every child. Together, [Greater Twin Cities United Way](#), the [Saint Paul & Minnesota Foundation](#) and [The Minneapolis Foundation](#) have been asking students, parents, community members, school leaders and researchers what is working—and what isn't working—in our schools.

On December 5, we'll connect those voices and talk about the ways we can take collective action. We'll also discuss the findings of the soon-to-be-released report, *Expanding the Vision of Reimagine Minnesota: A Collective Education Roadmap for Action*. Join us and be a part of a movement for change.

## Expanding the Vision of Reimagine Minnesota

We know the facts. Minnesota is among the worst in the nation for racial disparities. We read reports that prove the challenge is real. Now, we have commissioned research informed by the perspectives of those most proximate to the issues to help drive solutions.

A forthcoming study conducted by the [College of Education and Human Development](#) at the University of Minnesota reveals the evidence basis for eight key levers to closing racial disparities across K-12 education. Join education, civic and community leaders, and philanthropists from across the metro area to learn about the *Expanding the Vision of Reimagine Minnesota* report.
